

OZODJON A'ZAMJONOV

Backend Engineer

Tashkent, Uzbekistan | +998 93 462 80 18 | ozodjon160605@gmail.com

Telegram: @ozodjons05 | Portfolio: gophers.uz

TECHNICAL SKILLS

- **Languages & Frameworks:** Go, Python, C, Gin, Fiber
- **Databases:** PostgreSQL, MongoDB, Redis, MySQL, CockroachDB
- **Microservices & Messaging:** gRPC, Protocol Buffers, Kafka, RabbitMQ, WebSockets
- **Tools & Technologies:** Docker, Swagger, JWT, Casbin, CI/CD

WORK EXPERIENCE

ItLegacy

Oct 2025 – Present

Backend Engineer (Findeserve)

- Developed a multi-tenant Retail/CRM system covering inventory, POS, finance, cashbox, loyalty, and customers.
- Implemented scalable backend services with Go, PostgreSQL, Redis, Docker, and Swagger-documented APIs.
- Designed backend architecture supporting multi-company, multi-branch, RBAC, and service-based modules.

Noor

Jun 2025 – Oct 2025

Backend Engineer (PharmaCosmos)

- Enhanced internal CRM by implementing new features and Redis-based performance optimizations.
- Developed and optimized REST APIs with advanced SQL query tuning for high-load scenarios.

Udevs

Dec 2024 – Jun 2025

Backend Engineer (MBF SAP Mobile App)

- Developed performance-critical APIs integrated with SAP Business One using Go, gRPC, and REST.
- Optimized concurrent processes with Goroutines to improve system performance.
- Collaborated with DevOps and mobile teams using Redis, RabbitMQ, Knative, and Docker.

SmartAdmin.uz

Oct 2024 – Apr 2025

Backend Engineer (CRM Admin Panel)

- Developed a CRM system for inventory, sales, finance, and debt management.
- Built scalable backend services using Go, PostgreSQL, Redis, and Docker.

BabylonDev

Jul 2024 – Sep 2024

Backend Engineer

- Worked on secure and scalable backend architecture.

PROJECTS

PharmaCosmos | Pharmacy Management System

- Built a full-featured system covering product imports, inventory tracking, sales analytics, and financial reports.
- Developed a dashboard, stock insights, 1C integration, auto-ordering, transfers, and write-offs modules.
- Integrated local payment systems including Click, Payme, and personally implemented Alif integration.

Findeserve | findeserve.uz

- Built a comprehensive CRM and service management platform for American truck shops, covering full-cycle operations.
- Integrated Telegram bot for request intake and Gmail API to send estimates, authorizations, and invoices to clients.
- Implemented WebSockets for real-time updates and established CI/CD pipelines for automated deployments.

EDUCATION & LANGUAGES

- **Tashkent State University of Economics:** Bachelor's Degree in Economics (Banking)
- **Najot Ta'lim:** Coursework in Backend Development (Go, Python, C)
- **Languages:** Uzbek (Native), Russian (C1), English (B2)
